# VETERANS RESOURCE GROUP

April is Month of the Military Child, to celebrate military children, their resilience and sacrifices. April 15th is designated as Purple Up Day, to wear purple for military children.

There are more than 1.6 million military children who face many challenges and unique experiences as a result of their parents' service. While military members serve around the world, we often forget the challenges faced by their children. In addition to deployments, military families move on average every two to three years, impacting military children through changing schools and support networks.
