Speaker

Cynthia "Cindy" Smith, MSN, RN, MED-SURG-BC, CNE

Cindy has been a nurse for nearly 40 years, practicing in outpatient, medical-surgical, critical-care and long-term care settings. She has held various roles in leadership, management and education. She is on the nursing faculty of Nightingale College, where she teaches a variety of nursing courses in the BCN program. In addition, Cindy works as a staff nurse at Hampton Regional Medical Center in South Carolina.

For complete biography, please visit MedEdSeminars.net. MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Description

This two-day course is designed to provide nurses with the tools, confidence and knowledge to successfully complete the Medical-Surgical Nursing Exam. The exam content outlines and blueprints from the ANCC and MSNCB® were used to develop this program. Topics covered from the exam content outlines will include: review of body systems, cardiac, pulmonary, neurologic, gastrointestinal, renal, genitourinary, reproductive, endocrine, hematologic, musculoskeletal, immune and more. Pathophysiology of disease processes, including signs and symptoms and treatment modalities, will be presented. The nursing process and nursing practice roles in the management of patient care will be discussed through case scenarios and sample questions. All aspects of the Practice Domains will be addressed at the end of Day 2, and strategies for test-taking will also be covered.

Program Learning Outcomes

This program prepares the learner to:

- Self-report at an 80% rate an increase in knowledge and confidence necessary to pass the certification exam.
