Speaker

Jessie Desir, M.S. Ed., AMB-BC, OCN

Jessie is an experienced nurse professional with 20 years' experience in inpatient nursing administration, nursing care management, cardiothoracic surgery, all intensive care units and as a nurse educator. While completing a Ph.D. program, she is currently an adjunct didactic with a school of nursing and clinical instructor. Additionally, Jessie serves as a nurse educator in ambulatory care and outpatient adult oncology infusion services.

Course Description

The Ambulatory Care Nursing Exam Review is designed to prepare those nurses working in ambulatory care to sit for the American Nurses Credentialing Center's exam. Ambulatory Care Nursing encompasses all practice settings of Ambulatory Care including, but not limited to, outpatient surgery, office settings, clinics and primary care settings. The course content is based on the exam blueprint provided by ANCC.

Program Learning Outcomes

This program prepares the learner to:

- Describe the Ambulatory Care Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.
- Recall the core components covered in the exam through didactic supplementation and test questions.
