WHO WE ARE

key partnerships

CCTSI

University of Colorado Clinical & Translational Sciences Institute

PACT

Partnership of Academicians & Communities for Translation

SNOCAP

Practice Based Research Networks

CFPHE

Colorado Foundation for Public Health & the Environment

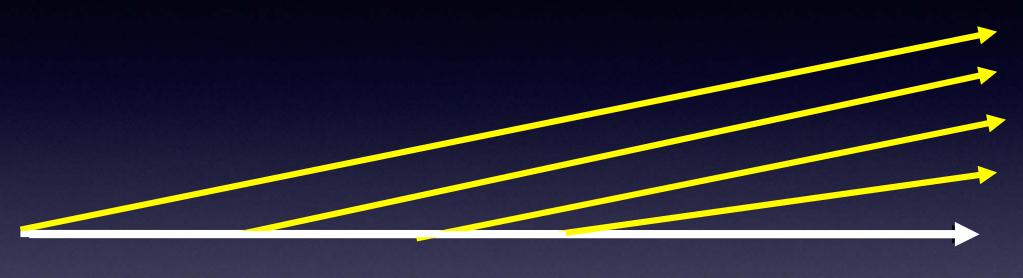

• "Outreach begins with an answer...
Engagement ends with an answer."

 Roger Rennekamp, Ohio State University Extension Director

The Partnership of Academicians and Communities for Translation (PACT) transforms health research to balance power and responsibility between community, clinicians, and researchers to improve the health of the people of Colorado and the Rocky Mountain Region.

Trajectory Change

Idea with community

Planning with community

Grant writing with community

in community
with
community

Data collection

with

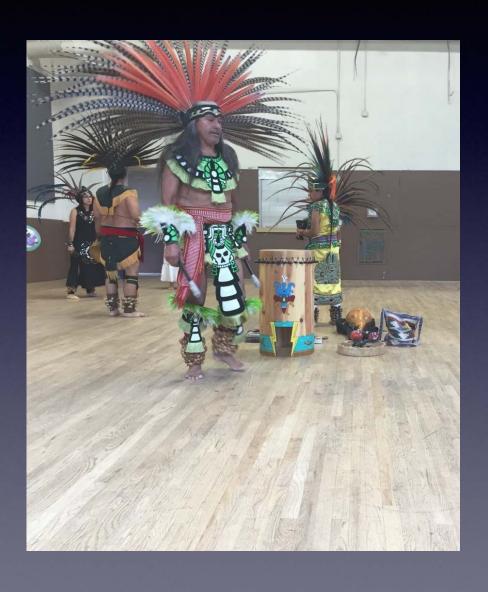

community

Analysis and publication in journal with community, with dissemination back to community

basic principles

CBPR...

- · recognizes community as a unit of identity
- builds on strengths and resources within the community
- facilitates collaborative, equitable involvement of all partners in all phases of research
- integrates knowledge and intervention for mutual benefit of all partners
- promotes a co-learning and empowering process that attends to social inequalities
- involves a cyclical and iterative process
- addresses health from both positive and ecological perspectives
- disseminates findings and knowledge gained to all partners
- involves long-term commitment by all partners
 - Barbara Israel

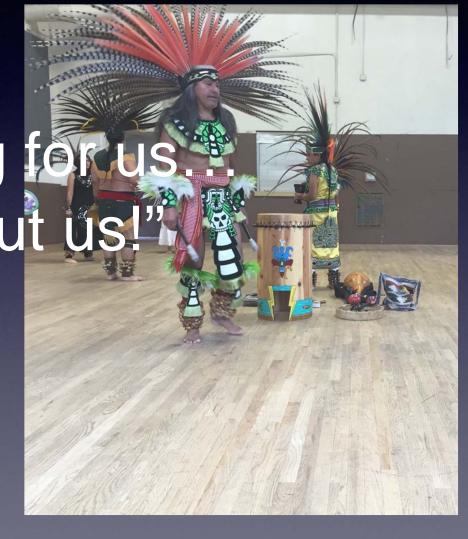

basic principles

• CBPR...

- · recognizes community as a unit of identity
- builds on strengths and resources within the community
- facilitates collaborative, equitable involvement of all part Nothing for us research
- integrates knowledge and interventing or mutual benefit of all partners Without us

process that attends to social inequalities

- involves a cyclical and iterative process
- addresses health from both positive and ecological perspectives
- disseminates findings and knowledge gained to all partners
- involves long-term commitment by all partners
 - Barbara Israel

- Colorado Immersion Training
- Boot Camp Translation Training

Colorado Immersion Training

- Targeted at researchers
- Learn core principles of community-based participatory research and community engaged translational research.
- Develop skills to engage community partners in research.
- Spend time in a local Colorado community to learn first-hand about the community and begin relationship-building.

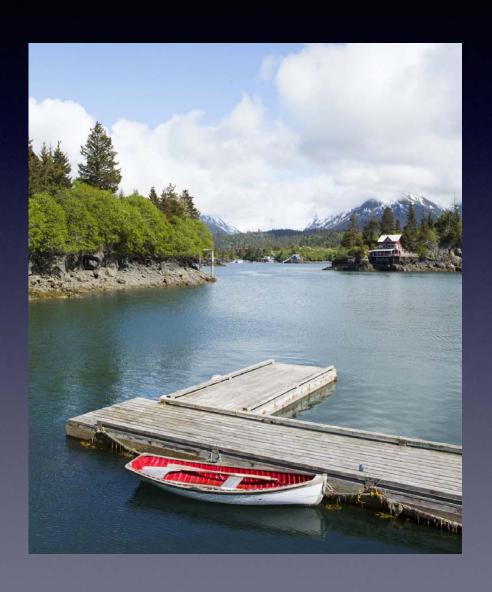

CIT structure

- Orientation day in April
- 4-5 weeks of directed readings
- Immersion week in a community
- Follow up discussions over subsequent weeks

2010-current

- 88 participants
- Urban:
 - African American
 - Latino
 - Refugee
 - American Indian
- Rural
 - San Luis Valley
 - Northeastern High Plains

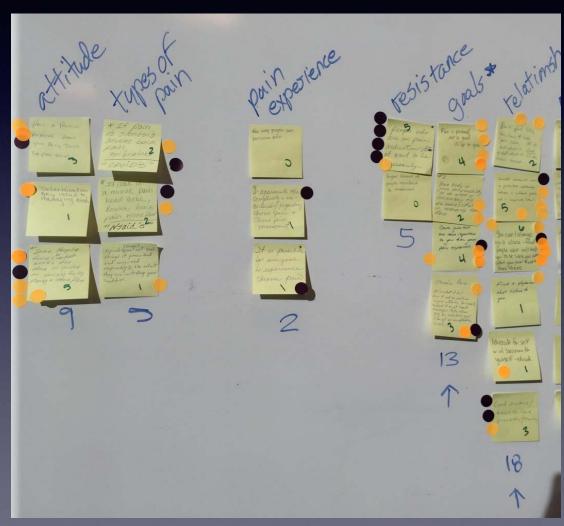

- "We learned about the Latino/a Denver community in the most beautiful way: by being invited into it."
- "A most important take away message which I will work at remembering—'research is the footnote, community improvement is the headline."
- "To me, the beauty of CBPR is that it seems fluid.
 There are principles but then there is how those principles are implemented in a community-engaged research setting."

Boot Camp Translation training

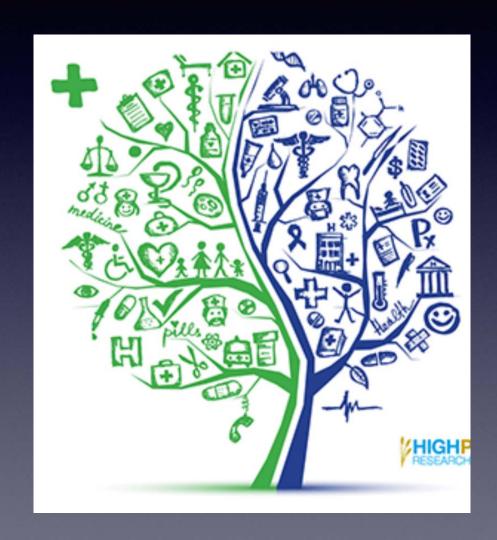

Boot Camp Translation...

- A process by which researchers and community members partner to translate evidence-based medical information and jargon, and clinical guidelines into concepts, messages, and materials that are locally relevant, meaningful, and engaging to community members.
- What is the message to our community?
- How do we effectively share that message?

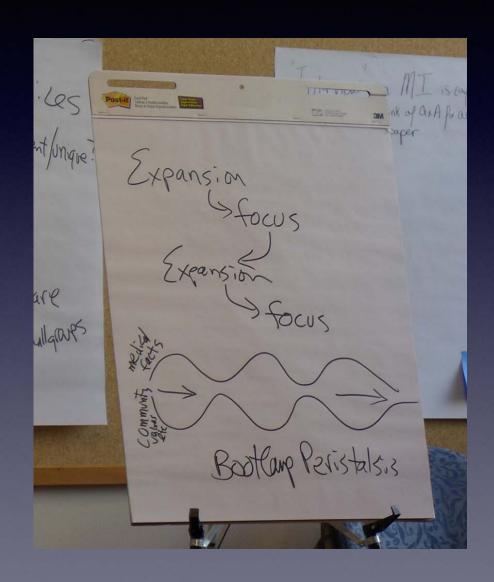

BCT Training

- 2-3 days workshop format
- Participants include researchers, public health and community leaders
- Focuses on learning basic principles of BCT and how to facilitate
- Includes opportunities to practice skills.

BCT Training

- Offered in Colorado twice a year
- Has also been offered off-site
- So far: 4 trainings offered with
 63 participants from 6 states
- Most have gone on to run their own BCTs

- Other trainings...
- Let's get started (community & campus)
- Community Research Liaison training (community)
- Community on Campus Day (community)
